HOME FEATURE, LATEST BLOG POST, RENEWABLES ENERGY, SOLAR VIKRAM SOLAR WINS NATIONAL EXCELLENCE AWARD

June 9, 2016 admin

Vikram Solar, a solar PV module manufacturer and EPC solutions provider, was awarded the National Excellence Award 2016 for roof top solar power projects in the Domestic Solar Module Manufacturers Category by the Government of India. The Award was presented by Piyush Goyal, Minister of State for Power, Coal and New & Renewable Energy, at the National Workshop on Roof Top Solar Power at Vigyan Bhavan, New Delhi.

Mr Gyanesh Chaudhary, CEO and MD, Vikram Solar said "We are proud to be recognised by the Government of India for our efforts in contributing to India's Solar Mission. As a leading domestic manufacturer, we consider it our responsibility to drive excellence in manufacturing and contribute to India's solar story by providing highest quality products and services."

Vikram Solar designed, engineered, and commissioned a 2 MW plant at the Netaji Subhash Chandra Bose Airport in Kolkata, which is the largest rooftop airport installation in India. The firm also executed a 750 kWp solar plant at Calicut International Airport. With education institutes now realising the importance of harnessing solar energy, they also commissioned a project at St. Xavier's College in Kolkata. A rooftop solar plant at the famous Kalighat temple in Kolkata was also executed by them.
